

Dear Sir/Madam,

From what I've read about National Association of Broadcasters (NAB) petition to restrict the airing/reception of local information (e.g., weather, traffic) by satellite radio, I respectfully ask the FCC to reject MB 04-160. I pay for the service and find it much better than the local radio stations. I don't want the NAB, with your authorization, limiting what I can hear on my satellite radio.

Regards,

Daniel O'Leary
